

RADIOLOGY ASSOCIATES OF HARTFORD PRESENTS

## *Fitting a mammogram into your busy schedule has never been easier!*

If you're always on the go, you might find it difficult to schedule your annual mammogram...especially with the hours that most centers and hospitals keep. But at RAH this October, we're opening early 7:30am-8:30am and staying open 5pm-7pm so you can check your mammogram off your list!

What's more, we'll provide a light meal to go! All you have to do is schedule your appointment at [www.bookmymammo.com](http://www.bookmymammo.com), fill out the meal form and we'll take care of the rest.

### 3D MAMMOGRAPHY NOW AVAILABLE!

- Up to 40% improved detection rate
- No increase in radiation over standard 2D mammography
- Fewer false positives and need for re-takes
- An excellent screening option for women with dense breasts
